

# Lesson 10: System Requirements Worksheet

Study the software system requirements in the box below. Then, look at each specification listed to determine whether or not it will support the software. Check “yes” if the specification meets the system requirements, or check “no” if it does not.

## MINIMUM SYSTEM REQUIREMENTS:

*Windows 95/98:*

Pentium 120 MHz or faster

16MB RAM or more

19MB available hard disk space

4x CD-ROM drive or faster

*iMac or G3 Macintosh:*

System 7.5 or higher

32MB Ram or more

22MB available hard disk space

4x CD-ROM drive or faster

- |                              |                             |  |
|------------------------------|-----------------------------|--|
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | 1. iMac System 9.0.4, 128MB Ram, 40 MB free hard disk space, 12x CD-ROM      |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | 2. Windows 98, Pentium 233, 32MB RAM, 150 free hard disk space, 24x CD-ROM   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | 3. iMac System 7.5, 32MB Ram, 18 MB available hard disk space, 4x CD-ROM     |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | 4. Macintosh System 4.0, 16MB RAM, 64MB free hard disk space, 2x CD-ROM      |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | 5. Windows Pentium 533 MHz, 128MB RAM, 1GB free hard disk space, 24x CD-ROM  |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | 6. Windows 3.1, Pentium 100, 8MB RAM, 32MB free hard disk space, 4x CD-ROM   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | 7. Windows 95, Pentium 200, 12MB RAM, 25MB free hard disk space, 4x CD-ROM   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | 8. Macintosh G3, System 7.5, 64MB RAM, 80MB free hard disk space, 12x CD-ROM |
